Role of Department

Introduction

Orthopedics is the branch of medicine concerned with diseases, injuries and conditions of the musculoskeletal system or the body's muscles and skeleton. This structure also includes the joints, tendons, ligaments and nerves.

Meanwhile, orthopedic physicians are the medical specialists who provide preventive and surgical treatment of the musculoskeletal system.

Orthopedic Surgery

Experts insist that the accurate name of this medical specialty is actually orthopedic surgery, instead of orthopedics. However, orthopedics is the commonly recognized and accepted term for the purpose.

As a line of specialists, orthopedic surgery is made up of physicians and other healthcare professionals who provide comprehensive orthopedic services. This line of expertise provides treatment and care of diseases, injuries, fractures and pain.

In addition, orthopedists also design rehabilitation programs for the physically disabled and participate in ongoing musculoskeletal research.

Orthopedic Physicians – Key Roles

The main roles of an orthopedic physician can be divided into the following sub-heads:

Diagnostic and assessment procedures Treatment Research

Here we have discussed each of the roles in detail to facilitate a better understanding of an orthopedic physician's role and functions.

Departmental Workshop by Faculties

- 1) **A cadaveric workshop** at dissection hall on this Sunday dated 31/03/2019 by **Dr. Nitin Bhalerao**
- 2) **Cadaveric course**, demonstration within our department on Sunday 5th July 2020 at 10.30 Am. By **Dr. Nitin Bhalerao**
- 3) **Osteoporosis Survey** in Department of Orthopaedics from dates 19/11/2019 to 20/11/2019.
This survey is designed to detect Bone Mass Density (B.M.D.) in all the Medical students, physiotherapist and all hospital staff.
- 4) **“Medical on Wheels ”**A saw bone Workshop on knee arthroplasty arranged by Orthopaedics Department in 03-01-2020 to 04-01-2020 under the guidance of **Dr. Nitin Bhalerao**
Invited “J & J Medical on Wheels” Bus for the workshop. Its mobile training Centre with various learning modules like knee arthroscopy simulators, saw bone platform etc.
- 5) Instructional course Lecture on Total Knee Arthroplasty by **Dr. Ashutosh Joshi & Dr. Patole**
